SPEAKING .- Remember that there will be public speaking next Monday, on the subject of education and the rebuilding of Giles College, by several of our distinguished fellow-citizens.

VALUABLE FARMS FOR RENT .- Besides the large number of valuable farms advertised for sale in this paper, there are two of the most desirable places to be found in Middle Tennesser, advertised to rent for a number of years.

ALLEN, & HILL MCALISTER. - We call special attention to the advertisement of this firm. They are successors to that wellknown and popular firm of J. A. McAlister & Co., under whose eye and tutorage that olever and sensible young McAlister. Hill. clever and sensible young McAlister, Hill, was brought up and trained to the business.

WE direct attention to the advertisement of Messrs. Davis, VENABLE & Co., who desire us to correct a false impression made by interested parties that they are not receiving and selling cotton. They are reliable gentlemen, and, besides, have with them that prince of princes, Capt. Bon MITCHELL, well known to everybody in Brown's immortal old brigade.

LARGE POTATOES .- We heartily thank those friends who have so kindly remembered us lately. We have been presented with the largest and the longest potatoes from several patches. Our young friend, James McCallum, Jr., was kind enough to bring us spicimens of the crop raised by the sweat of his own brow. One of them 34 inches in length. Maj. M. Childress and his man Jarret raised near 150 bushels on half an acre. The Major brought us some very fine ones.

But our esteemed friend, A. P. Martin, bears off the palm. He raised the largest we have yet seen. It was a sort of twin patato, and weighed over seven pounds. With the small prong broken off, it weigh- | Corner Front and Madison, MEMPHIS, TENN. ed even six.

We don't care how many such potatoes were smaller, the quality might be made Livery and Sale Stable, up in quantity.

Boys, BEWARE. Wonder if the boys of our town are aware that, for mutilating and tearing down hand-bills, etc., posted in public places, they lay themselves tiable to be fined five dollars for each offense? Such is the fact, and we would say to those who are guilty of this bad practice-beware.

WE warn the public against borse thieves. We do not know that there is any more horse and cattle stealing going on now than is ordinarily the case, but people will grow careless. We frequently hear of this sort of thieving about in spots, as well as the neual amount of petty stealing.

Few persons think how much money even a short crop of cotton will yield the South this year at present prices. Estima-South this year at present prices. Estimating the crop at 1,500,000 bales, which is about what many think it will be, at \$130 FRIDAY MORNING, NOV'R 2, 1866 | per bale, about a fair average price, the crop will produce \$195,000,000, and yield the government a revenue of 22,000,000. Look out for cross marks on your paper. This This sum, diffused among all branches of trade and business, will greatly relieve the present dull, hard and stringent times.

NASHVILLE COTTON MARKET.

It is a generally admitted fact that the plan now dopted in Tobacco sales of selling at Auction, reserving the privilege of rejecting the best bid. If not sa isfactory to the planter, has given more satisfaction and uniformly caused produce to SELI Homes THAN ANY OTHER METHOD and believing that this will prove equally satisfactory in Cottonas Tobacco. Mesers. Smith. Parkes & Stark, of Nashville, have concluded to adopt this plan. After the market begins, they will have sales once or twice a week, on

Its advantages are numerous. It draws together all the buyers in this and many other markets, the competition between whom insures the highest market price for each bale offered. Each bale is be fore the buyer, so that he can see its condition, with a sample fairly drawn, showing its quality.

The owner, either in person or through his agent, has the right to reject the sale when the price

These adventages are secured to the Planter with the same expense of selling as under the old system. The universal satisfaction given to all who have ever tested this system is proof that this is, par excellence, the best that can be had. [sept 28-1m]
